- CMS:** WordPress (Elementor, Theme Customization, PSD to WordPress)
- Backend:** PHP (Basic)
- Other:** Git, Responsive Design, SEO

### LANGUAGES

- English (Intermediate)
- Urdu (Fluent)

### PROFILE

Motivated Web Developer with 1 year of hands-on experience in building responsive and user-friendly websites using HTML, CSS, Bootstrap, and WordPress. Completed multiple projects, including PSD to WordPress conversions for local and freelance clients. Currently expanding skills in PHP and WordPress theme development. Passionate about clean code, performance optimization, and delivering client-focused solutions.

I have worked with several clients through Upwork, delivering high-quality websites with fast turnaround and ongoing support.

### WORK EXPERIENCE

#### Freelance Web Developer

2025 - PRESENT

Remote

- Built responsive websites (WordPress, HTML/CSS, Bootstrap) for 5+ clients.
- Converted PSD designs into fully functional WordPress themes using Elementor and custom CSS.
- Improved site performance and SEO through optimization techniques.
- Provided ongoing support and maintenance post-delivery.

#### Fiverr / Upwork

2024 - 2025

Freelance WordPress Developer

- Assisted in building WordPress websites for small business clients.
- Created service pages, contact forms, and image galleries using Elementor.
- Customized existing themes and fixed layout/design issues.
- Gained hands-on experience with WordPress dashboard and plugins.

#### Intern Web Developer

2024

Self-Paced Practice / Remote

- Built static websites using HTML5, CSS3, and Bootstrap.
- Learned WordPress installation, dashboard usage, and basic theme structure.
- Practiced converting PSD designs into clean, responsive HTML layouts.
- Followed YouTube/online tutorials simulating real project workflows.
